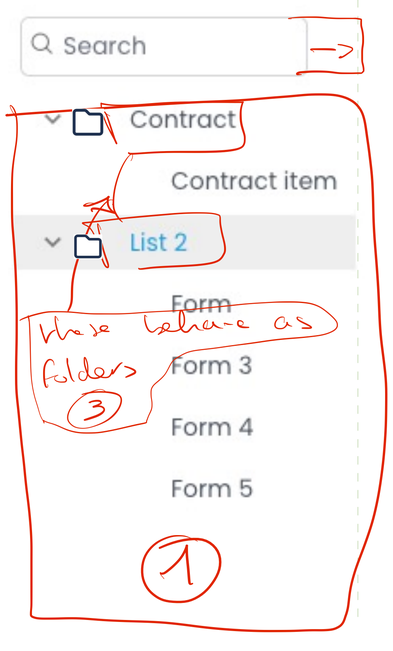
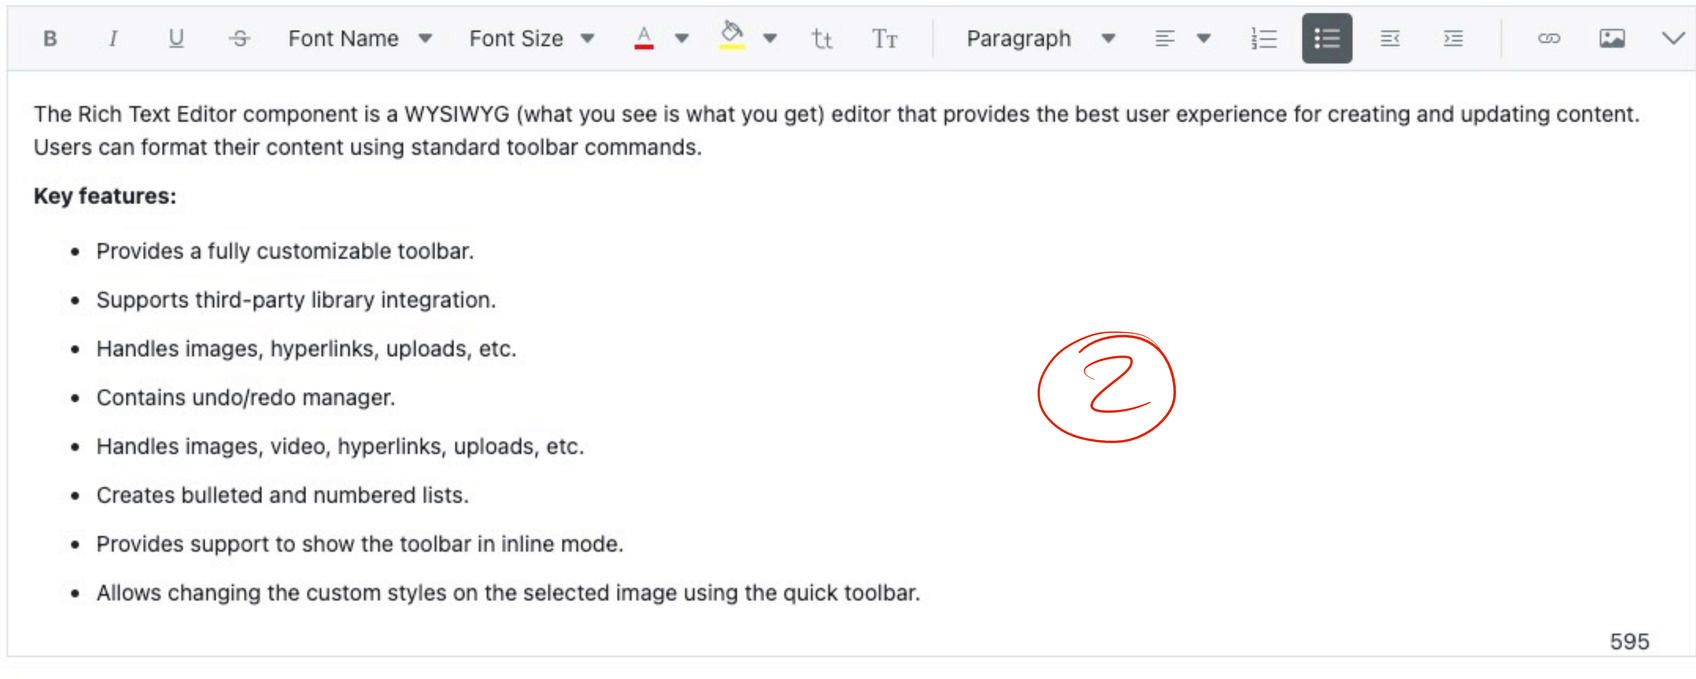
Snippets

Snippets editor

Snippet option





1 : implement syncfusion treeview component as in the codebase you've been given

⚠ we need right click actions. If unavailable on treeview, use File manager component instead

2 : in the center frame, implement Syncfusion component editor https://www.syncfusion.com/vue-components/vue-wysiwyg-rich-text-editor

3 : use this icon https://fontawesome.com/icons/folder?f=classic&s=regular

Additional requirement: When nothing is selected in the left sidebar, hide center and right panel.
